

- Impact damage, 3  
Implosive consolidation of particulate composites, 121  
Interlaminar fracture energy, 99, 113  
Internal friction (damping), 20  
  
Kevlar/epoxy composites, 90, 279  
  
Low velocity impact, 279  
  
Matrix resin (role in delamination), 257  
Melt-impregnated fibres, 100  
Micromechanical analysis, 79  
Micromechanisms of crack extension, 191  
MMC (metal matrix composites), 295  
Modelling fretting fatigue, 172  
Modified epoxy resins, 191  
Moulding (short-fibre thermosets), 241  
  
Non-destructive inspection, 260  
  
Orthotropic laminates (acoustic emissions), 213  
  
PMR-15 composites, 177  
PVC/alumina composites, 129  
PVC/silica composites, 121  
  
Particulate composites, 28, 121  
Phenolic fibre reinforced thermoplastics, 19  
Phenolic fibres, 22  
Polyamide matrix composites, 29  
Polyimide matrix composites, 177  
Polymer/ceramic powder composites, 121  
Polypropylene matrix composites, 22  
Polystyrene matrix composites, 22  
Post-impact properties (CFRP), 10  
Powder impregnation, 100  
  
Razor blade fracture test, 136  
Relaxation, 1  
Residual strength, 1, 12, 13, 183  
Residual stresses (metal matrix composites), 295  
  
Short-fibre composites (thermosets), 241  
Stick-slip fracture, 200  
Stress whitened zone, 206  
Surface damage, 289  
  
Thermal cycling (residual strength), 177  
Thermoplastic impregnated bundles, 97  
Transient elastic waves, 213  
Transitions, 1  
  
Unidirectional fibre composites, 79

## CONTENTS OF VOLUME 33

### *Number 1*

Relaxation Transitions, Fracture Toughness and Post-impact Residual Capacity of Carbon-Fibre Reinforced Composites . . . . .	1
M. AKAY (UK)	
Temperature Dependence of the Dynamic Properties of Phenolic-Fiber-Reinforced Thermoplastics . . . . .	19
EIICHI JINEN (Japan)	
The Fracture Behaviour of Carbon Fibre Reinforced Poly(Ether Etherketone) . . . . .	35
P. J. HINE, B. BREW, R. A. DUCKETT & I. M. WARD (UK)	
Book Review . . . . .	73
Conference Diary . . . . .	75

### *Number 2*

Micromechanical Analysis of the Strength of Unidirectional Fiber Composites . . . . .	79
JACOB ABOUDI (Israel)	
Thermoplastic Impregnated Fiber Bundles: Manufacturing of Laminates and Fracture Mechanics Characterization . . . . .	97
K. FRIEDRICH (FRG), T. GOGÉVA & S. FAKIROV (Bulgaria)	
Implosive Consolidation of Polymer Ceramic Powder Composites . . . . .	121
A. H. MUHANNA & T. Z. BLAZYNSKI (UK)	

323

The Measurement of Fracture Energy in Aligned Composites . . . . .	135
C. Y. BARLOW & A. H. WINDLE (UK)	
Announcement . . . . .	151
Conference Diary . . . . .	152

*Number 3*

Fretting Fatigue Studies on Carbon Fibre/Epoxy Resin Laminates: III— Microscopy of Fretting Fatigue Failure Mechanisms . . . . .	155
K. SCHULTE, K. FRIEDRICH & S. KUTTER (FRG)	
Thermal Cycling and Mechanical Property Assessment of Carbon Fibre Fabric Reinforced PMR-15 Polyimide Laminates . . . . .	177
G. A. OWENS & S. E. SCHOFIELD (UK)	
Micromechanisms of Crack Extension in Unmodified and Modified Epoxy Resins IT-MENG LOW & YIU-WING MAI (Australia)	191
Acoustic Emissions and Transient Elastic Waves in an Orthotropic Laminate Plate C. CHANG & C. T. SUN (USA)	213
Conference Diary . . . . .	237

*Number 4*

Design Methodology for the Molding of Short-Fiber Thermoset Composites . . . . .	241
RUSHAD F. EDULJEE, JOHN W. GILLESPIE, JR & R. BYRON PIPES (USA)	
Role of Matrix Resin in Delamination Onset and Growth in Composite Laminates LIN YE (People's Republic of China)	257
Low-Velocity Hard-Object Impact of Filament-Wound Kevlar/Epoxy Composite P. I. MEYER (USA)	279
Thermo-viscoplastic Residual Stresses in Metal Matrix Composites . . . . .	295
EDWARD ZYWICZ & DAVID M. PARKS (USA)	
Conference Diary . . . . .	317
Subject Index . . . . .	320
Author Index . . . . .	322

## Contents of Composite Structures

As a service to readers, the contents list of the current issue of this sister journal is reproduced here.

### Volume 10, Number 3

Design and Application of a Pultrusion for Multiple Use in the Fokker 100 ARNT OFFRINGA (The Netherlands)	199
Vibration of Laminated Orthotropic Plates using a Simplified Higher-order Deformation Theory N. R. SENTHILNATHAN, S. P. LIM, K. H. LEE & S. T. CHOW (Singapore)	211
Vibration and Damping Analysis of Curved Sandwich Beams with a Viscoelastic Core J. VASWANI, N. T. ASNANI & B. C. NAKRA (India)	231
The Influence of Target Geometry on the High Velocity Impact Response of CFRP W. J. CANTWELL (Switzerland)	247
<b>Book Reviews</b>	
<i>Composites Evaluation</i> . Proceedings of the Second International Conference on Testing, Evaluation and Quality Control of Composites—TEQC 87. Edited by J. Herriot, 1987. Butterworth Scientific Ltd, Guildford	267
<i>Non-destructive Testing of Fibre-reinforced Plastics Composites</i> , Volume 1. Edited by John Summerscales, 1987. Elsevier Applied Science Publishers, London	268
<i>Mechanical Behaviour of Composites and Laminates</i> . Edited by W. A. Green and M. V. Micunovic, 1987. Elsevier Applied Science Publishers, London (Reviewed by I. H. Marshall)	269
